

1999 Session of the Indiana General Assembly

State budget provides tax cuts, funding for education

The new state budget will make a very real difference in the lives of many Hoosiers. Some of the highlights include:

Program Funding

- Public education: Statewide total formula funding increase of an average of 4.7 percent in calendar years 2000 and 2001, with minimum guarantees of funding increases of at least 2.5%. Funding was increased for both at-risk and academic honors programs. Local schools and libraries also received \$76 million in technology funding.
- CHOICE: \$5 million increase per year in funding for home health care for the elderly
- Higher education: appropriations were increased by 7.0 percent in fiscal year 2000 and 4.7 percent in 2001
- Vocational education: incentives for school corporations to provide programs in which high employment demand exists
- A new \$50 million 21st Century Research and Technology Fund that will promote high-tech industries located in Indiana
- Social services: Funding for the seriously mentally ill is increased by \$3 million in 2000 and \$6 million in 2001. MRDD programs will receive an additional \$9 million in funding.

Hoosiers will save \$672 million over the next two years in tax cuts

- Homeowners: a new income tax deduction for property taxes up to \$2500
- Senior citizens income tax deduction: an increase from \$1000 to \$1500
- Senior citizens property tax deduction: an increase from \$1000 to \$2000
- Dependent children: an increase in the income tax deduction from \$1000 to \$2500
- Small businesses and farmers: property tax “add-back” repealed so farmers and business owners can deduct the amount of their property taxes from their state income taxes
- Renters: an increase in the income tax deduction from \$1500 to \$2000
- Mobile homes & campers: eliminated property taxes on mobile homes and campers valued up to \$37,500
- Long-term care health insurance: an income tax deduction for the premiums paid for long-term health care insurance
- Earned income tax credit: a new refundable credit for working parents making less than \$12,000 (replaces deduction)

Savings to Taxpayers

- Elimination of county welfare fund and county welfare administration funds from local property taxes (two-year savings: \$67.6 million)
- Elimination of inventory tax for 87 percent of farms and businesses (two-year savings: \$129.6 million)

Education

ISTEP Gateway Examination -- House Enrolled Act 1050 allows students who do not pass the ISTEP Gateway Examination to graduate, provided they meet certain other requirements. The legislation also provides that the case conference committee determines eligibility for graduation of certain students with disabilities. The Act also provides that all students in Grade 10 must take the examination.

Educational Standards -- A roundtable has been created to develop educational standards for Indiana students. Standards would be set for each grade level, easily comparable to national and international standards, written in an easy-to-understand manner, and distributed to students and parents.

Postsecondary Proprietary Education Grants -- Combines the higher education award program for students at postsecondary proprietary educational institutions with the award program for students at other institutions of higher learning.

Grubb votes to protect consumers

Stopping “slamming” & “cramming” -- House Enrolled Act 1628 gives the Indiana Utility Regulatory Commission (IURC) authority to impose a civil penalty on a telecommunications provider if the provider has violated the law or rules prohibiting the unauthorized switching of telecommunications providers or the billing of unauthorized services -- known as "slamming" and "cramming."

"Slamming" is the term used to describe the telecommunications practice of changing a person's phone service provider without the customer's permission. "Cramming," on the other hand, refers to billing for services not authorized by the customer.

Telephone solicitation -- House Enrolled Act 1434 should be a welcome relief to many of those same consumers and groups by imposing stricter regulations on professional solicitors and fundraisers while protecting telephone customers.

The act requires a professional solicitor to disclose several items to the attorney general, including the portion of a contribution that goes to the solicitor and the portion that actually goes to the charity.

It also requires professional solicitors to disclose many of those items at the beginning of each call, including the name of the company and the

phone number and address of the location from which the call is being made.

HMOs -- House Enrolled Act 1309 establishes an external procedure for grievances against HMOs. The act would require the Indiana Department of Insurance to hear grievances filed by individuals who have been denied services by an HMO.

The review would allow a physician who specializes in the treatment in question rather than a general practitioner or other physician to determine whether the patient should receive the requested services. Furthermore, the bill has provisions to ensure the review is done in a timely fashion. In life-threatening cases, the review will take place between three to five days.

This act provides a less costly and less time-consuming procedure for HMO grievance review. The independent reviews would be paid for by HMOs except for a \$25 filing fee paid for by the consumer.

Organ Donor -- House Bill 1184 allows a person registering a motor vehicle to make a donation of \$1 or more to organizations that promote the procurement of organs as anatomical gifts helping to ensure more people receive the gift of life.
